RE: Docket No. 98N-1265

To the FDA:

I disapprove of the Memorandum of Understanding as published by the FDA on January 21, 1999. This memorandum in its present form severely restricts the rights of my doctors, as well as patients like me, to obtain healthcare products from the providers that they choose. This also infringes on the rights of compounding pharmacists to serve the medical needs of the public.

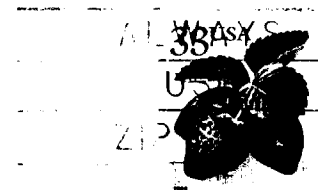

I regularly have a medication compounded for me and depend on its delivery periodically. This is not a safety issue and you should be responsible to see that persons like myself are able to get what we feel is the medication of choice. The Memorandum of Understanding MUST must be amended.
